My belief is that exercise is medicine. Through my college education and my own personal experiences as a group fitness instructor for two years, I have firsthand knowledge of the importance of exercise. My passion is to help you meet your personal goals, whether that be general health and wellness or sports performance. I have experience with various training levels, ages, and modalities such as strength training, cardiorespiratory exercise, and mobility.

I specialize in functional fitness, strength training, cardiorespiratory endurance training (running and swimming) and nutrition. I'm very passionate about helping others find happiness in life and feel good about themselves. I believe that when you FEEL GOOD, you excel in life.

a basketball player. With incorporation of the weight room, this earned me a spot on a state championship level team and I eventually went on to play college basketball. I currently powerlift now as a hobby. Fitness opens up opportunities for a better quality of life and it creates a sense of community. I am blessed to have had the privilege of gaining knowledge through my undergraduate degree and while I obtain my Masters in Exercise Science. These opportunities have allowed me to work and be a part of so many people's journeys. I would love to help you reach your fitness goals!
